

COMPREHENSIVE

Revenue Cycle Management Services

Our automation expertise will help your processes & your experience improve your profitability.

Sabrina, is an example of how we leverage technology to eliminate errors and inefficiencies in the Eligibility and Benefit Verification process for Dental enterprises across the nation.

iSpace powered Dental Eligibility and Benefits System, **Sabrina**, an advanced and automated solution, not only seamlessly integrates into your patient management system but also provides real-time appointment reporting to ensure every appointment is verified accurately ahead of the scheduled time.

Additionally, our **Robotic Processes Automation (RPA) enabled business processes** ensure greater accuracy and vastly improved efficiency while enabling real-time access across the entire **RCM** cycle, including though not limited to, **Pre-Authorization, Eligibility and Benefits Verification, Claims Submission, Payment Posting, Denial Management, Patient A/R, etc.**

Our domain knowledge in Healthcare and Dental industries, combined with expertise in all main-stream and emerging technologies - **Mobile, Cloud, AI, ML, Big Data and IoT** among others - positions us uniquely for developing solutions that address your today's needs and tomorrow's growth.

Sabrina Advantage

- ✓ Seamless integration with your PMS
- ✓ Consolidated and real-time reporting/dashboard
- ✓ Improved accuracy in treatment estimates
